

Project Background

Summarizing volume of expert and **Person Most Knowledgeable (PMK) testimonies** from various accident claim cases and **highlighting crucial information** such as “disputed statements regarding occurrence of events/ facts”, “pre-existing medical conditions”, “effects of accident on life of plaintiff”, “names of before and after fact witnesses” etc.

Challenges

- ⦿ **High quality** deposition summaries to **meet ongoing litigation timelines** and discovery dates
- ⦿ Faster results with **lower costs**
- ⦿ Understanding client formats and requirements and delivering accordingly

IDS Solution

Dedicated team of trained deposition summarizers worked under direct **Client’s Attorney’s instructions**

Online kick off meeting arranged to understand client requirements and delivery format (**Three-Column Topical Format**)

IDS proposed submitting a **pilot based on the take-away** of the online training

NDA between team member and client

Dedicated email id created for the client to interact with the team

Succinct summaries were delivered with **Table of Content (TOC)** for easy reference and retrieval
